Pioneer Solar & Renewables was established in 2019 with the vision to provide solutions for a sustainable energy future. Founder & CEO, Brett Kemmer, believes we need to take action to secure the sustainability of our planet. For him solar was an easy first choice with the abundance of sunlight we receive in the prairies.

In comparison, electricity from solar energy has a fixed cost per kilowatt hour. Going solar eliminates the concern of rising electricity rates and secures your cost of power at a lower rate than current utilities. Pairing your solar panels with a solar battery system allows you to keep your appliances and lights running even when the grid goes ...
