

Poland top 20 solar companies inia

Why is the solar energy industry growing in Poland?

The growth of the solar energy sector has been fueled primarily by supportive government policies at both the country and European Union levels, which have benefited both prosumers and utility-scale solar power plant owners. The Polish solar energy market is dominated by prosumers that numbered nearly 1 million.

What is solar energy in Poland?

Solar energy in Poland includes the production of solar thermal energy and solar photovoltaics. By the end of 2021, there were around 3,000,000 square metres (32,000,000 sq ft) of installed solar thermal collectors which in Poland are primarily used for heating up household water.
