Five Guys have a rich history in the US dating back to 1986, the restaurants goal remains the same today "Burgers and Fries cooked to perfection". Globally there are over 1,700 stores, with 150 dotted around the ...

Five Guys have a rich history in the US dating back to 1986, the restaurants goal remains the same today "Burgers and Fries cooked to perfection". Globally there are over 1,700 stores, with 150 dotted around the UK. Restaurants in the food industry are responsible for having a large impact on the environment. Five Guys as

Voltage Optimisation (VO) operates as a precise and dynamic method deeply rooted in the principles of Ohm's Law. At its core, VO is designed to strategically manage the voltage supplied to electrical equipment, ensuring it aligns precisely with the specific requirements of each device. This process is finely tuned to optimise energy usage while maintaining

Tees Active is a charitable trust that operates a range of facilities, including gyms, swimming pools, and ice skating rinks. In August 2022, Tees Active introduced its environmental plan, which aimed to enhance energy efficiency across its venues. True to their commitment, they successfully fulfilled this objective by investing in Voltage Optimisation technology, furthering their
