

The Distributed Energy Buyback Scheme (DEBS) offers eligible customers a payment for electricity they export to the grid, including from rooftop solar PV systems, batteries and electric vehicles. The DEBS pricing structure ...

The government and industry stakeholders are working towards a more sustainable and environmentally friendly energy landscape. In conclusion, the electricity market in the Czech Republic is a complex mix of traditional and ...

Transformative solutions for a reliable, resilient and intelligent energy future. The falling costs and growing adoption of distributed energy resources (DER) such as renewable energy, storage systems and microgrids ...

Prague, Central Bohemia, Liberec, &#218;st&#237; nad Labem, Hradec Kralove and Sumperk have all been affected today. Users on X are now saying that power has been restored in Prague. One said: ...

In this regard, this paper proposes a distributed fast voltage regulation method for energy storage systems (ESSs) in distribution networks. Firstly, to reduce the communication burden, the ...

A part of this transformation will include a proliferation of Distributed Energy Resources as well as a focus on customer choice and participation. We'll help to achieve this through a Distributed System Platform that will forecast, ...

Integration with other technologies, such as artificial intelligence and blockchain, may further enhance the capabilities of energy management systems. In conclusion, the IoT-based ...

Robust transmission and distribution networks appreciate its ability to increase operational efficiency on a daily basis. The platform uses advanced analytics and real-time data to monitor ...

Distributed energy resource systems offer improved energy utilization and reduced transmission losses by decentralizing power generation and load management. However, the power quality ...

Compliance with PPDS P4, formally known as Distribution System Operation Rules, Annex 4, is a prerequisite for grid connection of solar inverters in the Czech Republic, validating the ...

Czech-based lighting manufacturer Robe Lighting has announced a major shift in its distribution strategy for the Australian and New Zealand markets. From 1 July 2025, the ...
