MELLOY, Circuit Judge.. PRM Energy Systems, Inc. ("PRM"), licensed certain gasification technology patents to Primenergy, L.L.C. ("Primenergy"). Through a network of agreements (the "1999 Agreements"), PRM licensed Primenergy to use the gasification technology and enter into sublicense agreements in a number of countries. After a series of disputes between PRM and ...

So, reducing energy consumption can inevitably help to reduce emissions. However, some energy consumption is essential to human wellbeing and rising living standards. Energy intensity can therefore be a useful metric to monitor. Energy intensity measures the amount of energy consumed per unit of gross domestic product.

PRM Energy Systems, Inc. ("PRM"), licensed certain gasification technology patents to Primenergy, L.L.C. ("Primenergy"). Through a network of agreements (the "1999 Agreements"), PRM licensed Primenergy to use the gasification technology and enter into sublicense agreements in a number of countries.

PRM Energy Systems, Inc. (PRM), owned technology patents that it licensed to Primenergy to use and to sublicense in the United States. The agreement stated that all disputes would be settled by arbitration. Kobe Steel of Japan was interested in using the technology at its U.S. subsidiary. PRM directed Kobe to talk to Primenergy about that.

* On April 29, 2005, an Order was entered in Case 04-888, denying PRM's motion to dismiss for lack of subject matter jurisdiction, and noting that "PRM's argument that the dispute between the parties has been adjudicated [sic] by the arbitration proceedings in Arkansas should be submitted to the Court in a motion for summary judgment." * On May 3, 2005, EPTI ...

PRM Energy Systems, Inc. was originally incorporated in 1973 under the laws of Arkansas. The technology for the biomass fired reactor/gasifier was developed and patented under the direction of Mr. Ron Bailey, Sr. while President of Producers Rice Mill Inc., (1967-88). The first two gasifiers were installed in 1982 to gasify rice husks to ...
