"Almost seven years after Hurricane Maria, Puerto Rico's grid remains antiquated and unable to provide reliable service. The blackouts Puerto Rico is experiencing are another example of why rooftop solar is so critical for providing resiliency to households," said Tom Sanzillo, IEEFA director of financial analysis and author of the report.

Puerto Rico solar advice pty ltd

Solar Advice put my solar system in 2 years ago, and the service was good, so I used them again to extend the system last week. The install team (from G Force, not a Solar Advice team) was an hour late, completely messed up the battery alignment and position (twice!) and as a result there was no more space to drill holes, so they had to modify the battery brackets.

In a significant development, the U.S. Department of Energy (DOE) has unveiled an initiative to provide rooftop solar and battery storage systems to vulnerable households in Puerto Rico. The initiative, supported by the Puerto Rico Energy Resilience Fund (PR-ERF), has been allocated up to \$440 million in its first tranche. This funding aims to ...

After Hurricane Maria destroyed Puerto Rico's power grid in 2017, much of the island was left without electricity for up to a year, leaving vulnerable populations in the lurch. Many Puerto Ricans are pushing for a reliable, sustainable electricity system, but a proposed utility-scale solar project has sparked concerns. Ruth Santiago, an environmental attorney who ...
