

Raylyst solar Japan

Who is raylyst solar?

Battery-Box Pr... We are Raylyst Solar - a leading wholesale distributor of photovoltaic components in the European market. We provide top-quality and cost-effective PV solutions - solar panels, Solar inverters, battery storage systems, mounting structures, and other equipment from the world's top manufacturers.

Where does raylyst sell solar panels?

Prague-based Raylyst distributes Chinese solar panels and other photovoltaic equipment in Europe, with Germany now its biggest market, having overtaken the Czech Republic last year.

Where do raylyst panels come from?

Although Raylyst has all of its 45 employees in the Czech Republic, the group transports most of its Chinese panels directly from the Dutch port of Rotterdam to customers in Germany and elsewhere. It also operates a warehouse in Koper, Slovenia, to distribute panels in Italy and Austria.

What makes raylyst a good company?

The cooperation with Raylyst is characterized by fast and smooth communication. We are very satisfied with the pricing and the fast processing which is very important to us. To rewrap our customer projects in a short time. Contact is very easy via telephone or e-mail. Competent contact persons.

Is raylyst facing an existential threat?

Between 2019 and 2022, Raylyst achieved annual compound growth of 824.4 per cent, reporting revenues of EUR111mn in that final year. But its success comes as the European sector is "facing an existential threat", according to the European Solar Manufacturing Council (ESMC), an industry group.

Why is raylyst a top ft company?

And it is the strength of the continent's demand for renewable power, spurred by the transition away from fossil fuels, that has pushed the company to the top of this year's FT ranking of businesses by revenue growth. Between 2019 and 2022, Raylyst achieved annual compound growth of 824.4 per cent, reporting revenues of EUR111mn in that final year.
