When Rezolv decided to invest in the project in 2022, it was selected for its proximity to the Carpathian Mountains (12km to the north-west), which give rise to higher wind yields. To maximise the potential for power generation, the project will benefit from the latest technology, including best-in-class turbines and high voltage (400 kV ...

The Chairman of the Czech Energy Regulatory Authority (ER&#218;) recently estimated the investment needed into the transmission and distribution system at 271 billion crowns (EUR10.7 billion) by 2030. Not all of that is directly related to the development of green energy, but it is an indication of the kind of money that will need to be found.
