This paper aims to estimating the global solar radiation in Rwanda. We mainly treated the particular case of Kigali where meteorological data records (sunshine duration, temperature, pressure and ...

14 September 2014, Kigali -- The biggest solar power plant in East Africa has just opened in Rwanda. It is the first grid level solar plant in the region - a 21-hectare field covered with panels. Rwanda might not seem an obvious place to put it, as the country averages only about five hours of sunshine per day, and not much more where the plant is located.

We had Sunshine Solar install our 10 panel system almost a year ago and we are very happy with it. Obviously especially in summer where our bill went from \$130 Dec 2021 down to \$42 in Dec 2022!! It's more even over winter but still a saving and great to be part of covering our own needs including charging a car. We appreciated the clear ...
