

# Saint Lucia wasion energy

What is the energy potential of Saint Lucia?

Saint Lucia is a volcanic windward island, with large technical potential for geothermal, wind, and solar renewable energy generation, as well as use of solid waste generated by residents. Little technical potential for biomass or hydroelectric generation exists on the island.

What is the future of electricity in Saint Lucia?

At the same time, recent developments in energy efficiency, renewable energy, cleaner-burning fuels (e.g., natural gas), electricity storage, and advanced controls and metering present a myriad of opportunities. Saint Lucia's current electricity system is well managed, reliable, and equitable.

What is Saint Lucia's energy transition opportunity?

**RESULTS** Saint Lucia's energy transition opportunity provides a win-win situation in which the Government of Saint Lucia supports constituents through cheaper electricity, and LUCELEC continues to profit and provide reliable service.

Is Saint Lucia reliant on fossil fuels for electricity generation?

Like many island nations, Saint Lucia is almost 100% reliant on imported fossil fuels for electricity generation, leaving it vulnerable to global oil price fluctuations that directly impact the cost of electricity. Electricity Sector Data

How much does electricity cost in Saint Lucia?

The 2015 electricity rates in Saint Lucia are \$0.34 per kilowatt-hour (kWh), in line with the Caribbean regional average of \$0.33/kWh. Like many island nations, Saint Lucia is almost 100% reliant on imported fossil fuels for electricity generation, leaving it vulnerable to global oil price fluctuations that directly impact the cost of electricity.

Is Saint Lucia's Electricity System reliable?

Saint Lucia's current electricity system is well managed, reliable, and equitable. This can be primarily attributed to the fact that LUCELEC is a responsible and financially sound utility.

Wasion Energy's self-developed High-Voltage AC Automatic Circuit Reclosers, showcased in an immersive and scenarized manner, was the highlight of the Wasion booth. These products are designed for 50/60Hz, 15.5kV three-phase AC overhead distribution networks. They feature functions such as rapid self-healing and isolation, high-precision fault ...

From October 22 to 24, 2024, Enlit Europe 2024 kicked off in Milan, Italy, creating a vibrant showcase for the energy industry. During the exhibition, Wasion's solutions and products received significant attention, fostering deeper trust through meaningful exchanges and discussions with visitors.
