

With EU elections underway from 6-9 June, EASE--the European Association for Storage of Energy--sent out a media alert regarding a "manifesto" it published in March ahead of the runup to voting. EASE said energy storage is a "crucial tool" to boost energy security and industrial competitiveness, help lower energy bills across Europe ...

The New South Wales government has approved plans for a 250MW solar-plus-storage project in Gunning, 260km south-west of Sydney, Australia. ... will include a 150MW/600MWh 4-hour duration battery ...

In a recent interview for Energy-Storage.news, the now former ESA CEO said that the association expected to see at least 3.6GW of storage installed during 2021, and ESA published "Vision 2030" a while ago, citing that the deployment of at least 100GW of energy storage on the grid is both desirable and achievable.

Previously, Roger Lin at NEC's Energy Solutions division has told Energy-Storage.news of his role on the standards committee at NFPA, commenting that "there's a lot of great stuff in there [NFPA 855]," including "seemingly trivial" considerations that can end up causing serious problems.

A 100MW/400MWh BESS project featuring Tesla Megapack units in California, US. Image: Arevon Asset Management. As the Battery StorageTech Bankability Ratings Report launches, providing insights and risk analysis on the leading global battery energy storage systems (BESS) suppliers, PV Tech Research market analyst Charlotte Gisbourne offers an ...

The Critical Materials Monitor aims to improve understanding of supply chains essential for the energy transition, the transition to more sustainable energy. It offers insights into the critical ...

In a bid to incentivise the creation of energy storage in Ireland, the government is developing a policy framework to help deliver their objectives in this area of its Climate Action Plan which is targeting a proportion of renewable electricity to up to 80% by 2030.. These objectives include supporting the integration of high volumes of renewable generation by ...

ACERA's Ana Lia Rojas opening the two-day event. Image: Solar Media. Battery energy storage systems (BESS) will play an important role in reducing curtailment issues Chile has been facing in 2024, keynote speakers said at the third edition of Solar Media's Energy Storage Summit Latin America 2024 today.. The two-day event kicked off today (15 October) ...

Until 2016, PJM's frequency regulation market, which allowed fast-responding resources like energy storage to bid into tenders to provide the ancillary service ahead of existing assets like gas peaker plants, was the

Saint Pierre and Miquelon energy storage association

biggest front of meter energy storage market in the US, since overtaken by California. Over 265MW of advanced energy storage projects are thought ...

Itochu is aiming to grow the energy storage business in Japan to 1GWh of capacity and US\$678 million (JPY100 billion) in value, capturing 10-20% of the domestic market share. Itochu Corporation is one of Japan's seven major sogo shosha conglomerates with specialisms in textiles, machinery, metals and minerals, energy, food and general products.

Located in the northwestern Atlantic Ocean, Saint Pierre & Miquelon stretches over 242 km² and includes the islands of Saint Pierre, Miquelon-Langlade, L'Anse-aux-Marins and many smaller uninhabited islands. The centre of all activity is the smaller island of Saint Pierre with a population of just over 5,500 people.

Earlier this month, Energy-Storage.news reported that US Vanadium is expanding its vanadium electrolyte capacity to 2.25 million litres a year on the back of a deal to supply 580,000 litres of electrolyte for an 8MWh VRFB system that Austrian manufacturer CellCube is delivering for a US customer. US Vanadium and CellCube are partnering on the ...
