It was an honor to present at the annual MEE Vándorgyulés and represent KKS-Energy. I'm proud of the results we have achieved over the past five years, which I was able to share with the Hungarian energy sector. Energy storage has become a hot topic in Hungary, and I'm seeing increasing interest in the market. Our team has been involved in projects totaling nearly ...

Samoa's transition to renewable energy by 2025 was a given - oh well, that was the messaging we were getting, during the term of the last Administration - so you can imagine the shock at revelations by Olo Fiti Vaai that the last government had ceased renewable energy development projects.

According to EPC's Annual Report 2019-2020, 45 per cent of electricity was generated from renewable energy. Most of the electricity in Samoa, particularly for the main grid, is generated from diesel, hydro-power and solar power generation stations and a very small amount of electricity is produced from wind energy and biomass resources.

Those reductions are more than double the amount of GHG emissions that were required to manufacture those products over the same time period. In 2020, Samsung had 303 ENERGY STAR base models, including 100% of tablets, front-load washers and dishwashers, 86% of refrigerators, 78% of top-load washers and 54% of dryers that are ENERGY STAR ...
