Hello, everyone on this video. I will explain how to perform a SQL self-service backup using power protect data manager SQL agent software. First, open Microsoft SQL Management Studio as administrator once connected, locate an open S MS plug in, set it back up T and under general page configure different settings for the backup SQL server host.

Timor-Leste has rapidly expanded electricity access to more than 83 per cent of the population but the country has yet to achieve energy security.<sup>1</sup> Consumer costs, even with government subsidy, remain high and outages are common. In addition, most of Timor-Leste's electricity is generated through costly and polluting diesel generators.
