

Seychelles economy solar

What does the Seychelles government do?

The Seychelles Government is committed to providing adequate, reliable and affordable energy to meet future energy consumption needs and to underpin strong economic growth through consumable energy initiatives. The Seychelles enjoy favourable conditions for renewable energy (RE) resources, such as wind and solar.

What is a people-centred energy transition in Seychelles?

An exciting people-centred energy transition is underway in Seychelles, an archipelago of 115 islands off East Africa in the Indian Ocean. Spearheaded by the Seychelles Energy Commission, the PV democratisation 2.0 project is the recipient of the Climate Investment Platform's Thomas Jensen Energy Transition Award.

What is the Seychelles energy plan?

It targets an ambitious transformation and diversification of the Seychelles' currently 85 MW diesel-dominated electricity generation capacity (on Mahé, Praslin and La Digue), aiming at replacing diesel generators with domestic and international public and private financing.

How does UNDP support the Seychelles Energy Commission?

Through the Climate Investment Platform, UNDP is supporting the Seychelles Energy Commission's initiative to make the adoption of renewable energy accessible to the population that would otherwise not be able to afford to do so.

How much does Seychelles contribute to global emissions?

With approximately 0.003% of the world's GHG emissions in 2011, Seychelles contributes only marginally to the global emissions on an absolute scale (GoS, 2015). However, in particular the energy sector is carbon intensive. About 90% of all domestic CO₂ emissions stem from power generation and the road transportation sector.

Is a 100% renewable Seychelles power supply possible?

The study 'A 100% Renewable Seychelles' (Hohmeyer, 2016) indicates that a power supply solely from renewable sources is technically feasible. With regards to the three islands, Mahé as the main island enjoys the service of a reliable electricity system, which services practically every citizen and has very few downtimes.

ECONOMY. Seychelles ranks as the second richest country of Africa, with a reported per capita GDP of \$28,172. It is characterized as a highly developed country. Seychelles' economy is largely based on tourism.
