Where is the 50MW Planet Solar PV project located in Sierra Leone?

The 50MW Planet Solar PV project is split in four different locations in Sierra Leone, consisting of a 12MW power plant under construction in BO/Kenema, a 4.05 MW (DC) power plant to be constructed in Port Loko, a 25MW power plant under construction in Makoth and a 10MW power plant under construction in Kono.

Does Sierra Leone have a solar energy resource?

Ministry of Finance The Government of Sierra Leone (GoSL) recognises that the country is endowed with a significant solar energy resource. This potential however remains largely untapped.

What will GOSL do for Sierra Leone?

GOSL will remove barriers hampering the effective development, implementation and dissemination of renewable energy technologies. Also, the draft Energy Policy estimates that Solar PV generation capacity in Sierra Leone is expected to start at 31 MW in 2020 and increase to 156 MW by 2023.

Will a new power plant increase electricity supply in Sierra Leone?

Overall, the facility is expected to raise the operational electricity supply in Sierra Leone by about 30%. According to the statement, only 23% of the population of the country currently has access to electricity.

How many people in Sierra Leone have electricity?

According to the statement, only 23% of the population of the country currently has access to electricity. Sierra Leone is one of the priority countries of the Africa Resilience Investment Accelerator initiative, through which development finance institutions join forces to unlock investment opportunities in transition states in Africa.

Do Sierra Leone laws apply to a project financed infrastructure project?

In most cases the Government insists on applying Sierra Leone laws exclusively to the entire IPP project, but because Sierra Leone's laws are not sufficiently developed to deal with the complexities of project financed infrastructure contracts Sierra Leone, investors and especially lenders, insist that the laws of other jurisdictions be applied.

At the end, a total of 6,657 households in rural Sierra Leone were illuminated for the first time, with access to clean and sustainable electricity provided by the containerized solar power solutions from Asantys Systems GmbH. This milestone achievement represents a significant step towards improving lives and fostering development in the region.
