What makes our solar-electric yachts unique and sets them apart from the rest? It is our extensive experience with the technology. By substituting generators with solar power and large battery banks in order to supply energy to all household appliances on board since the mid 1990s and by pioneering the solar-electric drivetrain during the mid 2000s, Silent Yachts has gathered about ...

ISLAND ENERGY, TONGA G-11 HAWT The wind regime on Tonga tapu's eastern side has been assessed at 50m height to deliver an average wind speed of 6.5 m/s annually. This project has the potential to reduce significant volumes of diesel use annually. This project would not only mean a big reduction in Tonga's reliance
