Solar System Scope is a model of Solar System, Night sky and Outer Space in real time, with accurate positions of objects and lots of interesting facts. :) We hope you will have as much fun exploring the universe with our app as do we while making it :)

PV System Design The PV module converts sunlight into DC electricity. Solar charge controller regulates the voltage and current coming from the PV panels going to the battery and prevents battery overcharging and prolongs the battery life. Inverter converts DC output of PV panels or wind turbines into a clean AC current for AC appliances or fed back into the grid line. Battery ...
