

A summary of Sint Maarten's solar markets. In 2014, Sint Maarten's council of ministers sanctioned the National energy policy document. This document was supposed to usher in a new era of renewable energy in the Caribbean Island country. More specifically, the policy document envisioned an 80% renewable energy capacity by 2020.

With all the loadshedding we've faced recently, it's very unfortunate that GEBE hasn't made any (public) strides in investing in solar. In a report I created back in June 2019, five years ago exactly (June 1 st), I ...
