and, for off-grid situations, batteries, back-up generators, and other specialist components. Energy output of solar PV systems. Each solar PV panel is rated on its peak electrical output. For example, a panel with a 75 watts (W) peak rating (75 Wp) will have an output of 75 W under test conditions. ... Smart Energy Barbados | Initiative under ...

Ik heb mijn batterij nu iets meer dan een jaar, heb op dit moment 132 cycli. Maar wat ben je met een dynamisch contract als je een "domme" batterij hebt. Het smart E-grid programma van opteco blijft maar uitstellen. Ik zou graag wat meer info hebben vooraleer het capaciteitstarief eraankomt. (want let op, dan komt het waarschijnlijk wel van grond)
