Off-Grid Capability. Our Smart Box provides a genuine energy-independent experience with off-grid capability. Thanks to our innovative solutions with the use of advanced solar technology and efficient battery systems, our Smart Box can function independently, reducing or eliminating the need for a grid connection.

This proof-of-concept project started in November 2014. The RENAMA and Energy Unlimited team, with remote advice from volunteer student consultants of Namyang Business School, are helping community-based groups establish private business centres in pilot communities. The concept is as follows: the businesses are located in areas that are typically deprived of ...

Other smart energy controllers aren't really panels at all--but can attach to your traditional (non-smart) breaker box. Energy Star calls them "home energy management systems," but the idea is the same: They accomplish a lot of the same goals as full smart panels, but on a smaller scale and generally at a lower price. If you don't need to put ...
