

Smartflower price europe Niger

Is smartflower still available in Europe?

Since the Austrian company SmartFlower Energy went bankrupt, it is no longer purchasable in Europe. This said, an equivalent model simply named "SmartFlower" is still commercialised in the US. This model is very similar to the POP version, aside it being slightly more powerful (205 kWc) and available in fewer colours (white, grey, green and blue).

How much does a smartflower cost?

The Smartflower Plus, which includes an 11-kilowatt battery, is available for \$65,500, not including shipping and installation fees. Smartflower has a flower-like design that tracks the sun, offers on-grid and off-grid setups, and self-cleaning panels. See if Smartflower is right for you.

Does smartflower work in France?

Additionally, the SmartFlower can work in virtually any climate, as it can work at any between -20°C and 50°C. It will thus be usable anywhere in France, at any time of year. The first model introduced was SmartFlower POP.

What is a smartflower Solar System?

The Smartflower is billed as a self-contained residential solar installation produced by the Austrian manufacturing company of the same name. Each Smartflower has everything you need to start producing your own electricity: solar panels, inverter, wiring, and all the other bits and pieces. All you need to do is bolt it to the ground and plug it in.
