

Smartflower solar price Nigeria

How much does a smartflower solar panel cost?

Now, let's talk about the numbers. How much does the SmartFlower cost? Before applying for all incentives and tax credits, the SmartFlower solar panel system ranges in price from \$25,000 to \$30,000 with the average cost to install at \$27,000. There are two models that you can choose from, and this is why the price can vary.

What is smartflower solar?

SmartFlower Solar produces unique, ground-mounted solar panel systems that include a sun tracker and a number of other high-tech features. This 'smart' solar panel system is an all-in-one, self-sustaining system that differs greatly from the traditional monocrystalline or polycrystalline rooftop panels.

How much does a smartflower cost?

The Smartflower Plus, which includes an 11-kilowatt battery, is available for \$65,500, not including shipping and installation fees. Smartflower has a flower-like design that tracks the sun, offers on-grid and off-grid setups, and self-cleaning panels. See if Smartflower is right for you.

Does a smartflower produce more electricity than a solar panel?

Thanks to this tracking capability, the Smartflower can produce significantly more electricity than a similarly-sized rooftop solar panel system - up to 40 percent more, according to Smartflower's website.

What makes a smartflower a 'smart' Solar System?

It comes with a convenient number of features, and its unique with ground-mounting solar panel systems. It also includes a sun tracker and more impressive high-tech features, that makes the 'smart' in its name ideal. The smartflower has a multi-purpose system that is quite self-sustaining and distinctive from the traditional rooftop panels.

What is the warranty on a smartflower solar panel system?

The SmartFlower solar panel system has a system warranty of 5 years and a module performance warranty of 25 years. This also differs from other solar panel systems that have 20 to 25-year warranties for both the system and performance. Even most ground-mounted systems with sun-tracking capability have 10-year system warranties.

Unlike panels, the SmartFlower doesn't need to be south-facing (and pigeon-free). Solar, reinvented. A unique, versatile alternative to rooftop installations, the SmartFlower can provide up to 40% more output than traditional panels. Smart Tracking

The most significant deterrent for potential buyers is likely its exorbitant price. A typical Smartflower installation costs between \$25,000 and \$30,000, almost double that of a conventional rooftop solar array producing roughly equal output. ...
