inverters, Felicity Solar is a brand that stands out.

By the end, you'll be ready to pick the best solar battery to suit your needs and budget. 1. What are solar batteries? Solar batteries are devices used to store energy generated by solar panels for later use. When solar panels generate electricity from sunlight, the energy is often produced during the day when demand may be low.

Solar batteries are storage devices used for storage of energy harnessed from sunlight by solar panels to enable use of solar systems at night and when sunrays are not intense enough for solar panels to generate electricity.

**SOLTARO BATTERY STORAGE - INNOVATIVE SOLUTIONS.** Stop sending your unused power back to the grid. By combining Solar battery storage alongside your existing Solar PV, you can store your excess solar power. Use your stored power anytime you want it day or night and lower those energy bills.
