El Salvador has experienced a remarkable 160-fold increase in solar energy generation capacity from 2015 to 2023, according to data from the Latin American Energy Organization (Olade). This surge is attributed to the growing number of solar farms across the country, which now contribute significantly to the national energy grid.

According to information from the Transactions Unit (TU), the price of energy in the Salvadoran market registered 60.54 dollars per megawatt per hour (MW/h) in December 2020, as an indicator price. This value represented a reduction to a ...

El-Salvador. Solar Market Outlook in El Salvador. Despite being the smallest country in Central America, El Salvador is one of the strongest proponents of renewable energy production in the region. This is part of the government's commitment to reduce emissions and to increase energy efficiency while utilizing the country's tropical climate.

# Solar energy prices El Salvador

ENERGY es una empresa dedicada al rubro eléctrico, que ofrece soluciones integrales y de calidad para sus clientes. Con más de 15 años de experiencia en el mercado, Energy se destaca por su innovación, profesionalismo y seguridad. Somos líderes en alta tensión.

Pilot auction (2013) contracted 15 MW of solar, biomass, and small-scale hydro sources  
Two technology-specific RE auctions (2014, 2016)  
Total of 263.5 MW of installed capacity (213.5 MW solar, and 50 MW wind)  
Contracted solar price fell from \$101.90-\$123.41 per MWh in 2014 to \$49.55-\$67.25 in 2016  
El Salvador: Auction Results RE ...

Capella Solar provides approximately 4% of the supply to El Salvador's wholesale market. Together with the 101MW Providencia Solar project in La Paz department in the south of El Salvador which started operations in 2017, Neoen supplies 7% of ...
