

New York, July 2 - A new study published today shows that coupling renewable energy targets with supportive development policies and investments would have major financial benefits. ...

You have some utilities, like in Mozambique, that see small-scale solar power as a threat and are trying to claw it down. But the realization is this is happening anyway, whether you like it or not.

The Mozambique project is not only an opportunity for power plant construction, but also has the potential to open up deeper cooperation between China and Mozambique in the development ...

Tenders Supply of Solar Pumps and Sprinkler Irrigation System based on Solar Energy 14/07/2025 Read Next Hiring a Consultant to Supervise the Rehabilitation of the Indirect ...

On July 4, President Trump signed the "One Big Beautiful Bill." The bill makes steep cuts to solar energy and places new restrictions on energy tax credits that will slow the deployment of ...

The continent's greentech transition presents a strategic opportunity to address some of these barriers. For example, the development of solar plants and wind farms can mitigate energy supply constraints, thereby supporting downstream ...

The Cahora Bassa Hydroelectric Plant (HCB), in central Mozambique, will begin seeking "strategic partners" to develop the dam's solar power plant and northern power plant, projects ...

Inspired by South Africa's auction-based approach, Mozambique aims to introduce competitive pricing to attract investment and scale up clean energy infrastructure. With these initiatives, Mozambique is positioning itself ...

Mozambique is moving forward with a major renewable energy initiative following the completion of feasibility and environmental impact studies for a 400 MW solar power plant in Tete province.

Tender opens for solar-plus-storage projects in Mozambique Mozambique's Ministry of Mineral Resources and Energy has kicked off a tender for the development of decentralized solar and ...

Mozambique is moving forward with a major renewable energy initiative following the completion of feasibility and environmental impact studies for a 400 MW solar power plant in Tete province. The project, set to be developed under the ...
