PV Tech has been running PV ModuleTech Conferences since 2017. PV ModuleTech USA, on 17-18 June 2025, will be our fourth PV ModuleTech conference dedicated to the U.S. utility scale solar sector.

The most popular island group of the Caribbean, the British Virgin Islands are a go-to destination for new charterers and old salts alike. First-time yachters love the easy navigation, moderate winds and plentiful marinas, while experienced sailors return for the lively beach bars, secluded anchorages, and over 50 pristine islands with sublime snorkeling and diving.

SunGuard®; Solar est un verre de contrôle solaire destiné au secteur commercial qui aide à réduire les coûts de l'énergie solaire. Il constitue la solution idéale pour les applications où un gain de chaleur solaire excessif pourrait entraîner des environnements de vie inconfortables. Ses qualités réfléchissantes peuvent également améliorer l'aspect esthétique.

For most Virgin Islands homeowners, taking the leap to solar energy comes down to three factors: carbon footprint, convenience, and cost. ProSolar Systems has a solution for all three. With 10 years of customer service excellence, ProSolar is the most-recommended solar company in ...

Onyx Solar is the global leader in photovoltaic glass, an innovative building material that generates clean energy from the sun. Our glass integrates seamlessly into building envelope, converting them into renewable energy sources while enhancing insulation and protecting against harmful radiation. With over 500 installations in 60 countries, our glass is chosen by top ...

From its initial start as private/public autonomous and individual producers of electricity, the government owned public electricity supply was established in the 1950's. At that time, the BVI's main source of electricity was produced by one 20 KW generator, which provided six hours of service per day and supplied 63 consumers between Government house and...

natural light transmission, but also very low emissivity and the ability to be applied monolithically. Meaning it can be adapted to many different applications.

We're an award-winning solar energy company serving The U.S. Virgin Islands with a passion for clean, affordable energy. We offer a variety of renewable energy products for every home, every business, and every budget. Our team of solar energy professionals has over a decade of experience serving the people of the USVI and can tackle any clean energy challenge.

About Us. The December 2001 enactment of the Financial Services Commission Act, 2001 established the British Virgin Islands Financial Services Commission as an autonomous regulatory authority responsible for the regulation, supervision and inspection of all financial services in and from within the BVI.

While planning your move to the Virgin Islands there are several logistics that must be worked out. One of those things is figuring out what you are going to do about a car. Although each of the islands are rather small - a car is necessary unless you are able to car pool, or want to rely on the safari bus (our taxi system). Your options: 1.)
