Why is solarhub important?

Renewable energy plays a big role in combatting climate change. Solar energy innovation ecosystems are important. In this context, the EU-funded SolarHub project will strengthen connections between five Greek and Turkish solar energy innovation ecosystems.

When did Longi (Kuching) start producing solar panels?

LONGi (Kuching) Sdn Bhd (LONGi Kuching) was established in January 2016 and only started producing solar wafers in April that year, followed by silicon ingots in December later the same year. In May 2017, it started producing cell modules and in December the same year it expanded its plant to what it is today.

How big is Kuching International Airport warehouse?

The warehouse occupies about 40,000 square metres which is almost the size of Kuching International Airport's main terminal building, said Zhong. "More than 2,200 employees have been recruited, of which 99.9 per cent are Malaysians.

LONGi Group said that the plant would be built in the Shama Jaya Free Industrial Park, Kuching City, Sarawak, Malaysia at a cost of approximately RMB 840 million (US\$125.5 million) and operated by ...

At Our-Solar-Hub, we're here to empower you on your solar journey. Our extensive directory features a wide range of reliable solar solution providers, making it effortless for you to find the perfect fit. Let the magic happen here. Rest assured, every listing on our platform is thoroughly verified, guaranteeing you make the right choice every ...
