The clock is ticking on one of the biggest solar incentives in American history. Homeowners have until January 1, 2026 to claim the 30% federal tax credit--a benefit that can shave thousands of dollars off your solar investment.

**Key takeaways** We typically don't recommend solar leases if you can afford to pay in cash or take out a solar loan. You aren't eligible for most incentives if you lease your solar panels, which means you lose out on those ...

The federal solar tax credit or "Investment Tax Credit (ITC)" is, in many cases, the most valuable solar and battery incentive available to residential solar owners. Claiming the credit can reduce your federal tax liability by 30% ...

Richmond, Indiana is on the verge of a significant transformation in its community resilience efforts, thanks to a newly approved \$3 million grant. Funded by the Indiana Community Action ...

Congress and President Trump just passed legislation to cut the 30% residential solar tax credit in 2026--nearly a decade ahead of schedule. For homeowners considering solar, act now to lock ...
