SOLARO is available on any desktop, laptop or mobile browser. Students get access to all of SOLARO's content at any time! They can review courses in earlier grades or check out courses in future grade levels to challenge themselves. " I think this is a great way to make me learn at home!

What is a dedicated solar O&M provider?

A dedicated O&M provider is a third-party company (not your solar installer or equipment manufacturer) that you hire to monitor and maintain your solar panel system. Under the umbrella of dedicated solar O&M providers, you can choose from several types of plans. Three of the most common plans are preventative, corrective, and real-time.

What are the different types of solar O&M services?

There are generally three types of solar O&M services: a dedicated O&M provider, an installer-supplied O&M, and inverter monitoring solutions. A dedicated O&M provider is a third-party company (not your solar installer or equipment manufacturer) that you hire to monitor and maintain your solar panel system.

Does O&M clean solar panels?

O&M providers typically include cleaning services to safely clear dust, debris, or any other material covering your panels. Electrical systems connecting your solar panel system to your home and the power grid must be maintained.
