their presence and offerings in the Massachusetts market. ... Top Criteria for Rankings: Brands are rated based on value (25%), module quality (20%), financial strength (20%), U.S. investment (15%), warranty (10%), and dealer ...

Nope. Tier ranking (where 1 is the "best" and 3 is the "worst") is based on the "bankability" of a solar panel brand (aka how financially stable a manufacturer is), not its quality. And - tier ranking doesn't exist for solar inverters, only panels. Run far away from anyone who tries to sell you a "tier 1" inverter!

The infamous Bloomberg Tier 1 ranking is commonly referred to as a bellwether in the solar industry for identifying the better solar panel brands. It is important to note that this ranking only looks at each manufacturer's bankability. This is important because the business will need to be around for 25-30 years if you expect them to honour their lengthy warranty terms.
