Abreu noted that "the panels and other equipment have arrived in the Port of Ana Chaves in São Tomé, following delays and uncertainties due to a shortage of maritime transport." According to World Bank data, 76.6% of the population of São Tomé and Príncipe have access to electricity, generated primarily through imported diesel (92%).

National Renewable Energy Action Plan (NREAP) of São Tomé and Príncipe Page 6 of 110 INTRODUCTION The sustainable industrial and socio-economic development of São Tomé and Príncipe (STP) is heavily dependent on reforming the energy sector and transitioning from an almost complete reliance on fossil

Africa is facing a power crunch. Demand for power from the continent's rapidly growing and urbanising population far outstrips supply. According to estimates by the IEA, Africa's demand for electricity has outgrown supply every year since 1990 (Chart 1), with consumption growing at 8.4% per year compared with 6.1% per year for power supply. This has created a widening ...
