The other small hybrid solar power plant will be built in the Gabu region in eastern Guinea Bissau. The plant equipped with a battery storage system and back-up generators (diesel), will also be capable of generating 1 MW. The solar hybrid plant will supply electricity to the local population via a medium and low-voltage line.

The Lom&#233;-based African Biofuel & Renewable Energy Company (Abrec) has awarded a contract to Sinohydro to build a 20MWp solar plant at Gardete, 8km from Bissau, as well as a 30kV connection to the B&#244;r substation. Abrec said six eligible bids were received in an international tender that closed in May last year.Work is expected to take 16 months.
