

# Solar price in 2024 Jersey

How much does solar cost in New Jersey?

Interested in going solar? You'll need to install a 12.27 kW solar panel system to cover the average electric bill in New Jersey, which will cost you about \$22,410 after the federal tax credit. As long as your federal tax bill is high enough, you can take advantage of the federal investment tax credit (ITC).

How much does a 7kw Solar System cost in New Jersey?

Given the average residential price-per-watt of \$3.53 in New Jersey, a 7kW system can cost around \$24,680 depending on applicable rebates and other factors. Select your county by clicking on the map and see the potential generated solar power and panel pricing. See how it compares with the US state average.

Are solar panels a good investment in New Jersey?

With the cost of electricity rising, solar panels can help to offset your utility bills. In New Jersey, the average cost of electricity is higher than the national average, making the potential savings from solar even greater. Plus, with net metering, you can earn credits for the excess electricity your system produces.

What size solar panels do I need in New Jersey?

A solar panel system of 5 to 8 kW is a good size for most New Jersey homeowners. The cost of solar panels may vary depending on the size of your system, the type and brand of solar panels you choose and other rebates available.

Are there free solar panels in New Jersey?

We've all seen ads on Facebook and YouTube for free solar panels in New Jersey. And if your gut is saying that's too good to be true, your gut would be right. Although solar incentives can substantially reduce the cost of going solar, there is no such thing as free solar panels in New Jersey-- or anywhere, for that matter.

What is the average solar irradiance in South Jersey?

South Jersey has a higher average solar irradiance rating than the northern part of the state, according to the National Solar Radiation Database. Solar panels vary in efficiency, with some panels producing more electricity than others of the same size. The average efficiency is around 15% to 20%.

Cost of Home Solar Power in New Jersey. While the average national cost for solar panels is \$2.85 per watt, New Jersey's is slightly higher at \$2.95 per watt.
