The SolarVenti ventilation system not only removes humidity and moisture from the air to keep your garage dry, but it also filters out any other airborne pollutants, including the detrimental salt air we all know too well on the coast of Australia.

Solarventi price Australia

SolarVenti SV14 is the "Most sold model" jointly with its smaller brother SV7. Even though SV 14 delivers approx. 60 - 110 m³ air pr. hour with approx. 25-30 degrees C. temperature rise - compared to air temperature outdoors - the model is still so small, that it typically can be mounted both horizontally or vertically.. There are three SV14 roof versions:

Improve your indoor air quality to prevent asthma, dust mites, allergies, mould, termites, dry rot and seasonal illnesses. SolarVenti works to create a high Indoor Air Quality with an inbuilt air filter that removes airborne pollutants and humidity from ...
