Are Solis hybrid inverters compatible with lithium batteries?

Solis Battery Compatibility list To ensure optimal efficiency of your solar system, Solis hybrid inverters have been tested for compatibility with a wide range of Lithium batteries. More battery manufacturers will be added to our compatibility list in the future. When designing your installation, we recommend checking the compatibility list.

Who is Solis solar inverter?

24-hour online monitoring to grasp the situation of the power station in real time Solis is one of the world's largest and most experienced manufacturers of solar inverters supplying products globally for multinational utility companies, commercial & industrial rooftop projects, and residential solar systems.

I like the solis, but they mention in their warranty that you cant use DIY battery. My battery comprises of 16 x EVE cells in a sepos mason case and BMS. So although the solis would supply more from the battery, I guess I wouldn't have a warranty. So I thought about Deye as they seem very compatible and high power from battery.
