

## South Sudan power group aps

Will South Sudan benefit from Ethiopia's diversified off-grid power system?

As a member of the Eastern Africa Power Pool - a collaborative effort by 13 east African countries to interconnect their power grids and facilitate efficient trade of electricity among its member states - South Sudan will benefit from co-member Ethiopia's diversified, off-grid power systems.

How much electricity does South Sudan use per capita?

Per capita electricity consumption in South Sudan is about 1 to 3 kWh, compared to 80 kWh in Sub-Saharan African, and is the lowest in the region.

Will Ethiopia provide electricity to South Sudan?

Ethiopia is currently targeting an electricity transmission and distribution capacity of more than 70,000 GW, offering scope to supply much-needed electricity to South Sudan, whose electrification rates are amongst the lowest on the African continent.

Are South Sudan & Ethiopia collaborating on regional energy cooperation?

Following a meeting between a delegation from South Sudan's Ministry of Energy and Dams, led by H.E. Minister Peter Marcello and state-owned electric producer, Ethiopian Electric Power, the two countries formally targeted regional energy cooperation, with specifics outlined in a Memorandum of Understanding (MoU).

Does Bank support Juba pdsre project?

The proposed Bank support to Juba PDSRE Project is in line with the South Sudan Development Plan and South Sudan Infrastructure Action Plan both identifying infrastructure as a core priority for South Sudan.

Will South Sudan replace 11 kV power lines in Juba?

Replacing Juba's 11 kV power lines, the government of South Sudan, has also rolled-out a network of 33 kV lines to connect an additional 20,000 local consumers in Juba.
