

A Formal Delay, But Urgency Remains On July 18, 2025, the Council of the European Union adopted a regulation delaying the due diligence obligations under Regulation (EU) 2023/1542 to August 18, 2027. The change ...

Hydrogen Energy Systems training empowers professionals to understand and implement green hydrogen production, storage, and applications across the energy sector. This course focuses ...

The challenge with Renewable Energy sources arises due to their varying nature with time, climate, season or geographic location. Energy Storage Systems (ESS) can be used for storing available energy from Renewable ...

Dielectric composites play a crucial role in meeting the growing demand for high-energy-density capacitors that can operate effectively in challenging environments. These applications include aerospace power management, ...

As energy transition progresses step-by-step, the global demand for sustainable industrial manufacturing has never been higher. Companies need to demonstrate reductions in greenhouse gas emissions or verify the volume of ...

A view of iron-chromium flow batteries. The new energy storage technology is a good fit for large-scale energy storage applications due to their good safety record, cost performance and environmental friendliness. ...

Energy storage technologies include molten salt, liquid air, and cryogenic storage. With concentrated solar power, molten salt has turned into a commercially viable heat storage ...

Our study set out to measure the support for five potential climate mitigation policies. These were: Increasing taxes on foods like beef or dairy that are carbon intensive (give off a lot of ...

The mobile microgrid energy storage system market is experiencing robust growth, driven by increasing demand for reliable and portable power solutions in remote areas, disaster relief efforts, and off-grid applications. The market's ...

The rapid increase in demand for electronic gadgets and vehicles has intensified the pursuit of advanced and efficient energy storage technologies [1, 2, 3]. Various solutions, including ...
