Can a solar startup bring sustainable solar power to Haiti?

A new solar startup is aiming to bring sustainable solar power to Haiti, an island where only 38 percent of the population was connected to the electrical grid in 2016, according to data from the World Bank. Those who do have electricity still experience frequent blackouts and unreliable power quality.

Why did Zola electric join Haiti green solutions?

Energy technology company ZOLA Electric announced the partnership with local renewable energy pioneer Haiti Green Solutions for the deployment of its flagship energy technology platform to help address the energy crisis in the country, where the vast majority of its 12-million population lack access to reliable and affordable energy.

How much sunlight does Haiti receive annually?

According to a 2014 study by the Worldwatch Institute, Haiti receives almost the same amount of annual sunlight as Phoenix. This high solar potential, coupled with the high cost of imported diesel for electricity, is driving the push for renewable sources of energy in Haiti.

Why is energy so expensive in Haiti?

The economy in Haiti has a heavy reliance on fossil fuel energy which is entirely imported. But rising energy prices caused by the recent global social and economic turmoil have hit the domestic energy market hard. Today, Haiti sees some of the highest diesel costs in the world, peaking at \$15 per gallon.

Was there a tariff on solar panels in Haiti?

In September 2017, the Haitian Parliament eliminated import tariffs and duties on solar equipment. This contrasts with the U.S., which imposed a 30 percent import tariff on Chinese solar panels in January 2018. In June 2017, Haitian President Jovenel Moïse set a goal for 24-hour electricity.

Why is Zola launching in Haiti?

The launch in Haiti is also ZOLA's first time tapping into the North American market. The economy in Haiti has a heavy reliance on fossil fuel energy which is entirely imported. But rising energy prices caused by the recent global social and economic turmoil have hit the domestic energy market hard.

Enersa employs 18 full-time solar technicians drawn from the communities they serve, and Enersa's products affect the daily lives of thousands of Haitians. Enersa produces residential and commercial solar systems and solar chargers for smaller items such as cell phones and lamps, but their signature product is a solar street lamp.
