Taiwan has abundant wind power resources. In 2013, Taiwan"s onshore wind farm capacity factor is 28-29%, while its future offshore wind farm is 33-38%, with the total installed onshore wind capacity of 530 MW. There are currently 55 integrated and automated wind power forecasting systems established in Zhongtun, Kinmen, Mailiao, Changgong and Shihu. The first phase of wind power installation was done in January 2003 until December 2008 in whi...
