Can Thailand develop 100% ammonia-powered gas turbines?

Thailand already has two such initiatives underway: a coal co-firing trial led by Mitsubishi Heavy Industries, and GE/IHI's agreement to develop 100% ammonia-powered gas turbines (GE-built turbines make up 30% of Thailand's installed generating capacity). [Click to learn more.](#)

Can Thailand decarbonise its energy sector?

As part of the MoU, the group will study the feasibility of decarbonising Thailand's energy sector, presumably via the use of hydrogen & ammonia fuel in power generation.

Does Thailand have a nuclear power plant?

Thailand's energy authorities again included a nuclear power plant project in the new national power development plan (PDP) after previous attempts failed to develop this controversial form of energy. The PDP, scheduled to take effect from 2023 to 2037, aims to promote and support greater use of renewable energy.
