Electricity from sunlight (photovoltaics, PV) will play a major role in the energy transition and is poised to grow worldwide to the "terawatt" scale. In the Netherlands, the installed ...

The Dutch cabinet said it will support solar factories that will produce panels with a circular economy approach. It also allocated EUR296 million to support battery manufacturing.

It was not an easy job but Full Circle Solar took everything in their stride. Their advice on the optimal configuration was the best we got and they offered various alternatives. Their pricing was competitive and the system has worked flawlessly since installation. ... Relay42 Netherlands B.V. Cookie duration: 730 (days).

They installed an infinisolar for a friend of mine... install went fine but the hardware (full circle solar infinisolar) died after a few months. He ended up changing it for a victron. Installer also wanted to charge a monitoring fee... no thanks. Edited November 15, 2021 by Basil Katakuzinos

Amersfoort: 16th of December 2022. Full Circle Wind Services has commenced delivery on a long-term, full-scope, maintenance contract awarded by the Bluefield Solar Income Fund ("BSIF") via its operating company for the wind farm, to manage four Enercon E-70 turbines at Delabole Wind Farm, Cornwall.

12/21/2022 Going full circle with can recycling in Slovakia to reduce our carbon footprint. A deposit return scheme in Slovakia offers beverage producers including Plzenský Prazdroj Slovensko (part of Asahi Europe & International) the opportunity to purchase collected cans to recycle them and make them into new ones.

The world is switching to solar, now the cheapest source of energy in many places around the world. But there is a problem. EVA (ethyl-vinyl-acetate) lamination is used as an adhesive layer which glues all precious components in a solar panel together. This makes solar panels very costly to recycle, and downright impossible to repair.
