(SeeNews) - Nov 7, 2012 - The atolls of Tokelau in the South Pacific became the first territory in the world to meet almost all of its power demand with solar power via a NZD-8.5-million (USD 7m/EUR 5.5m) solar project, New Zealand's government said Monday.

Tokelau is the first country in the world to produce all its electricity needs from renewable energy. This small Pacific nation with three atolls and 1160 people has switched off its noisy, polluting diesel generators and is now totally powered by the sun. People in Tokelau began talking about a solar-powered future more than a decade ago. At that time, they relied on ...

Yes Solar Solutions recognized the value in these unique smart SPAN panels" capabilities and became an early certified installer of the SPAN smart panels. Tokelau, a small group of Pacific atolls off the coast of New Zealand, is well on its way to becoming the world's first truly renewable nation. Housing 1,400 people, the island is currently dependent on diesel fuel generators, burning 200 litres of gas daily. However, the residents hope to shed this wasteful habit by October of this year using solar energy.
