Market segmentation reveals a strong preference for Battery Electric Vehicles (BEVs) over Plug-in Hybrid Electric Vehicles (PHEVs) and Fuel Cell Electric Vehicles (FCEVs), with BEVs capturing the largest market share.

A new report by the International Council on Clean Transportation (ICCT) finds that battery electric vehicles (BEVs) produce significantly fewer greenhouse gas (GHG) emissions than ...

As Europe's electricity mix is getting cleaner, battery-electric vehicles (BEVs) are also offering a larger climate advantage than previously expected, according to the results of a new study ...

Based on Linglong Tire's 2024 sales figures, consulting firm Frost & Sullivan has named the tyre maker the world's largest supplier of original equipment tyres for New Energy Vehicles (NEVs), ...

Fuel cell vehicles (FCVs), which convert hydrogen into electricity via an electrochemical reaction, offer several benefits compared to internal combustion engine (ICE) vehicles and battery ...

The project consortium, coordinated by an Austrian Research Institute, is looking for a company (SME or bigger) acting as Original Equipment Manufacturer, who can cover all vehicle-related ...

Dominant Segments: Battery Electric Vehicles (BEVs) are leading the passenger EV space, with SUVs and subcompact SUVs dominating sales. Tata Motors remains a frontrunner, driven by ...

According to the SMMT, 24.8% of new cars registered in the UK in June 2025 were pure battery-electric vehicles (BEVs) whilst just 5.6% were diesels. Plug-in hybrids accounted for 11.2%.

Boost Local EV Manufacturing: Position Maharashtra as India's top producer of battery electric vehicles (BEVs) by incentivizing the establishment of at least one gigafactory for advanced ...

The once-accelerating transition to battery electric vehicles (BEVs) in the U.S. has hit a speed bump. Slowing consumer demand, infrastructure limitations, and shifting regulatory signals ...

, that view hydrogen as a complementary technology to battery electric vehicles (BEVs). BMW's strategy hinges on leveraging its existing EV infrastructure and components, such as electric ...

The UK government has reconfirmed its plans for a ban on pure petrol and diesel vehicle sales by 2030, with hybrid vehicles following in 2035 for cars, leaving only zero emissions vehicles, of ...

Tonga battery electric vehicles bevs

Okay, now what about electric and plug-in hybrids? The company plans to offer 15 battery electric vehicle (BEV) models by 2027, compared to the five it currently offers. Two of these new BEVs ...

Hydrogen vs. Batteries: Is the Future of Cars Fuel Cells or Charging? The automotive industry is in a whirlwind of change, with electric vehicles (EVs) taking center stage. But while battery ...

Imports of battery electric vehicles (BEVS) fell by more than 50 per cent in value during the 12 months to June 2025, when compared with the year prior, according to Stats NZ. The total value of passenger motor vehicle imports for the past ...

Battery Electric Vehicles (BEVs) now dominate powertrain installations, making up nearly 71% of the total demand across major regions. Battery packs account for about 38% of the market ...

Guidance for car manufacturers on how to apply for their vehicles to be eligible for the Electric Car Grant. The guidance explains: how the scheme works vehicle eligibility the application process ...

In the first half of the year, more than 5.9 million battery electric vehicles (BEVs) were registered worldwide, a 37% increase compared to the same period in 2024. For comparison, full-year sales in 2024 had only grown by around 14%. China ...

"The good news is a hydrogen vehicle is an electric vehicle," says Guldner. "It's just a different way of storing the energy versus a battery, which also means that we can reuse a lot of the ...

In the first half of the year, more than 5.9 million battery electric vehicles (BEVs) were registered worldwide, a 37% increase compared to the same period in 2024. For comparison, full-year ...

The global electric vehicle (EV) market is witnessing a significant resurgence, with sales in the first half of the year exceeding 5.9 million battery electric vehicles (BEVs), according to a ...

This paper explores the implementation of battery electric vehicles (BEVs) in underground mining operations, focusing on their benefits, challenges, and safety considerations. The study ...
