

# Unigrid battery Norway

What is unigrid's sodium-ion battery technology?

Discover UNIGRID's sodium-ion battery technology that combines safety, performance, and sustainability. Our innovative batteries use abundant resources to deliver efficient and powerful energy storage solutions for a cleaner, safer world. Learn more and take the Sodium-Ion Challenge today!

Are unigrid batteries safe?

UNIGRID's sodium-ion batteries are unlike any other. Built in safety. For peace of mind. Third-party tested for safety, you will not find a safer sodium-ion battery with comparable performance. Our sodium-ion batteries do not undergo thermal runaway.

Are unigrid sodium-ion batteries safe?

Take the Sodium-Ion Challenge. For a cleaner, safer world. The world needs clean, safe, easily accessible, and affordable energy storage. We've cracked the code on a solution: UNIGRID's sodium-ion batteries, which use abundant resources, are lower-cost, safer, and just as powerful as any other battery. Why UNIGRID's sodium-ion batteries?

Are unigrid batteries a "drop-in" solution?

UNIGRID batteries are a true "drop-in" solution. We use the same cylindrical and prismatic form factor as lithium-ion batteries, making a switch to our smarter, safer sodium-ion batteries seamless. Test the power of UNIGRID for yourself. Take the Sodium-Ion Challenge.

Several South Korean media sources reported that the LG group invested in Unigrid Inc. This US-based startup develops sodium-ion batteries through its corporate venture capital, LG Technology Ventures. The investment amount is unpublicized. Unigrid Battery plans to use this fund to accelerate the commercialization of ....

SAN DIEGO - Local startup UNIGRID Battery is a step closer to commercial production of its sodium-ion batteries following the successful close of an oversubscribed \$12 million Series A funding round. "That will allow us to enter production volumes that our customers require," CEO Darren Tan said. Darren Tan CEO UNIGRID Battery Tan said the company ...

UNIGRID, a provider of sodium-based battery solutions, raised \$12 million in an oversubscribed Series A funding round. The round was Co-led by Transition VC and Ritz Venture Capital and joined by new investor Union ...

SAN DIEGO, June 13, 2024 -- UNIGRID Battery, a San Diego-based startup developing advanced sodium-ion batteries, today announced a successful close of an oversubscribed \$12 Million Series A ...

UNIGRID Battery Raises \$12M Series A. June 14, 2024. Unigrid Battery, a San Diego, CA-based startup developing advanced sodium-ion batteries, raised \$12M in Series A funding. The round was led by Transition VC and Ritz Venture Capital, with participation from Union Square Ventures and existing investor Foothill Ventures.

Notably, this technology utilizes only abundant materials and is compatible with conventional Li-ion battery manufacturing infrastructure. Funding Utilization. UNIGRID plans to use the Raised USD 12M for battery production acceleration. Expanding its operations, UNIGRID aims to scale up its battery production to meet MWh-scale customer orders.

## Unigrid battery Norway

Because of this, he claims, Unigrid's battery packs can be built to the same size as lithium-ion, offer the same power output, and be hooked up to the same electronic systems. He added that sodium-ion batteries are less likely to go into thermal runaway than their lithium-ion counterparts. Thermal runaway can lead to batteries catching fire.

Cleantech San Diego member and Southern California Energy Innovation Network company UNIGRID Battery, a San Diego-based startup developing advanced sodium-ion batteries, has announced a successful close of an oversubscribed \$12 Million Series A funding round. The financing was Co-led by Transition VC and Ritz Venture Capital and joined by new investor ...

Being a proactive organisation, we delved into the battery industry exploring on cathodes, anodes and current collector materials for Li-ion battery. We are currently involved as a Co-Principal Investigator in the 2019 Energy Programme Joint Grant Call ...
