

Recurrent Energy is one of the world's largest and most geographically diversified utility-scale solar and energy storage project development, ownership and operations platforms. With an industry-leading ...

Glint Solar has added a new battery energy storage noise-modelling feature to its utility-scale planning software platform. The new tool is meant to support project developers during early ...

Lithuania's Ministries of Energy and the Environment have jointly approved an additional EUR37 million in funding to expand the country's capital expenditure (capex) support for energy ...

DLA Piper advised Eletricidade de Timor-Leste on its first utility-scale solar PV and battery storage project with a 100MW capacity, marking a major milestone in the country's renewable ...

Company profile: e-STORAGE, a subsidiary of Canadian Solar, specializes in the design and manufacturing of battery energy storage system design for utility scale battery storage applications. With the global demand for ...

AMEA Power has successfully commissioned Egypt's first utility-scale Battery Energy Storage System (BESS), a 300 MWh facility entirely powered by solar photovoltaic (PV) energy. ...

With utility-scale projects underway across the region, Trina Storage continues to expand its footprint and support APAC's clean energy transition through safe, high-performing, and future ...

This report analyzes the cost of lithium-ion battery energy storage systems (BESS) within the US utility-scale energy storage segment, providing a 10-year price forecast by both system and ...

Dive Brief: The New Jersey Board of Public Utilities plans to procure at least 1 GW of transmission-scale energy storage in two competitive solicitations over the next 12 months, it ...

Examples of GSL ENERGY's energy storage projects in Ukraine In February 2025, the GSL team successfully installed a 600kWh battery large-scale commercial energy storage system for a Ukrainian company, which is ...

Proposed tariff increases on Chinese lithium-iron-phosphate (LFP) battery imports threaten to disrupt the United States' deployment of battery energy storage systems (BESS), a critical enabler of grid stability and the ...

Zenobe Energy Funding: \$2.9B Zenobe Energy is the largest independent owner and operator of battery

Utility-scale energy storage kiev

storage in the UK. It buys and manages grid-scale batteries for its commercial customers, such as utilities ...

Global leading energy storage company, JinkoESS, a subsidiary corporation of Jinko Solar Co., Ltd., is proud to power a newly commissioned 3.8 MWh utility-scale energy storage system in ...

Recent market activity highlights this growth. I n July 2025, UAB Karjeru Linija and the state-owned utility Ignitis Group invested in utility-scale battery energy storage system (BESS) ...

According to DTEK, the project can store 400 megawatt-hours of electricity -- enough to power 600,000 Ukrainian homes for two hours. DTEK announced that commercial operations are ...
