The first semester closed with record numbers: in Italy, 1,000 people were connected almost two million solar installations (1,93 million) for a total power of 38,5 GW Photovoltaic production ...

Nearly one year has passed since Pope Francis revealed his plan for the Vatican state to transition to solar energy as its main power source, as outlined in the 2024 motu ...

An off-grid solar system's size depends on factors such as your daily energy consumption, local sunlight availability, chosen equipment, the appliances that you're trying to run, and system configuration.

Energy Vault, a gravity-based power storage provider, has begun building on its first commercial-scale project. The 100MWh battery pack is being constructed near a wind generator in Rudong, Jiangsu State, China, just east ...

Nagasaki City to subsidize 2.5MW of solar for off-site PPAs, accepting proposals until October 2025 July 28, 2025 This article is only available to The Japan Power Industry Executive ...

Building on an initiative launched under Pope Francis, Leo XIV has endorsed a project to convert a 430-hectare site in Santa Maria di Galeria, north of Rome, into a massive solar farm. If ...

As part of his visit to Santa Maria di Galeria, a Vatican extra territory outside of Rome, Leo had the opportunity to examine the project site being studied for an "agrivoltaic system" for farming ...

New research from the Australian National University (ANU) indicates that electric vehicles (EVs) and household hot water systems could help transform cities into large-scale energy storage ...

Leo XIV est a implementar um plano para a constru&#231;&#227;o de um parque solar que tornar&#225; a Cidade do Vaticano o primeiro Estado neutro de emiss&#245;es de carbono do mundo. O Papa ...

A solar battery allows you to store electricity produced by your solar panels and use it later or, in some cases, sell it back to the grid to make a few quid - but they're not cheap. Read on to see if it's worth getting a solar ...

Pope Francis' commitment to climate stewardship manifested in changes to the Vatican, including a fleet of electric cars and ambitious plans to transition the city-state to 100% solar energy. Leo ...

Image: Plenitude. Plenitude, the renewable energy development arm of Italian oil and gas major Eni, has started operations at the northern block of its 330MW Renopool solar portfolio in Spain.
