Why did Belgium shut down its nuclear power plants?

Belgium has faced a lot of problems with their nuclear power plants in the past few years. On March 2014 they had to shut down their nuclear power plants Doel 3 (1,006MW) and Tihange 2 (1,008MW), because of cracks in their steel reactor casings. In August 2014 Doel 4 (1,039MW) closed automatically after it overheated.

here in Belgium 3x240v ( without neutral ) is a nightmare to get an inverter that is 3phase and 48v. we need to find a solution to make Victron 3 phase work in Belgium :D. background info : i have now (for my koi pond project ) used L1 and L2 for a grid connection to the Victron system and that is working fine for years .( on and off grid ...

If your business is located in the Netherlands or Belgium and you'd like hands-on, one-to-one information about installing Energy Storage Systems - this tour is made for you. From February 1st you can request our Blue Power Demonstration Van comes straight to your door. It's equipped with fully-operational energy storage systems - the ones you're [...]

Which is the best meter for the Belgian market in Flanders? - 3 phase grid - 1x Multiplus 2 5000W - 1x Cerbo GX - 1x Cerbo touch 50 (because it can) - 1x ET112 (for monitoring solar panels, mono phase inverter) - EM24 or ET340 ? (net monitoring) I am talking about the 3 ...

you purchased the product. They are happy to help, trained with the highest level of know-how and responsible to provide you with support.

com.victronenergy.battery: Add /Dc/0/Power and /Mode, add missing fields to /State enum;  
com.victronenergy.digitalinput: Add "Generator" to /Type enum ... In Belgium if you don't want to pay extra on the electricity bill, the continuous power taken from the grid needs to be lower than 2500W. I think it would be easier if you could set a peak ...

Second desired option: with "auto" make sure that I won't go over XXXX W from the grid (in Belgium we have to pay extra when we go over 2500W. 0 Likes; Lucian Popescu (Victron Energy Staff) ?? mito555 commented; Jul 13, 2023 at 07:04 AM

Finally received a response from... Finally received a response from Victron, some 9 months after complaint. Speaks volumes really, and even then they did not address the issue other than place blame on the installer/customer.

I've just finished the installation of an ESS system to improve my autoconsumption here in Belgium. I would like to add the information of the battery transfers and state to my home made PV monitoring system. My current idea is to use MQTT to (locally, port 18883) read values at a relatively slow rate (once per 5 min).

We are excited to announce that our VRM App is now available on smartwatches! You can now monitor your Victron system on the go, directly from your wrist. With VRM on your smartwatch, keeping an eye on essential aspects of your system has never been easier. Quickly view the state of charge, solar power, grid [...]

Yesterday, I configured D-ESS with dynamic prices (before I had a fixed price contract) for Belgium. Something related? The VRM portal is updating but not realtime. I didn't change anything on the communication settings. Could you give me more advice on that topic? Before never had a problem on that matter.

The MultiGrid has gained more Certificates of Approval - extending their use to include France, Belgium and Spain. We have a blogpost about the make-over of a mansion super-powered by solar energy in Adelaide, Australia; and another blog explains how Kruger National Park Rangers are using mobile high-tech detection systems to defend their precious Rhino against poachers.

Existing system support Who to contact for existing system support? In case of issues, please check our support page or contact the dealer where you purchased the product, they are trained for first line support and can assist you with your issue, also if you bought your products through a webshop (such as Amazon, Ebay).

My supplier, official Victron dealer, is officially selling these systems. In Belgium we have this old grid 3x230V without Neutral. To have the correct measurement, we need to work with the EM24 and not the ET340 for example. They confirmed the MultiPlus can work on a system without the Neutral reference, in a safe manner.

AQ-Lith Energybox from Battery Suppliers Belgium for Multiplus. Hi, my friend who sell Crown Batteries in my island,told me that he will soon get the AQ-LITH ENERGY BOX to sell . And hel told me too,that Victron Multiplus works well with these lithium battery...

I have the same problem. (limit the scheduled charges to max. 2.3 kW (because the grid peak penalty starts above 2.5 kW). In ESS &quot;Scheduled charging&quot; I can set time windows to charge and limit the SOC but there is no option to set a ...
