

The International Flow Battery Forum (IFBF) concluded its 15th edition in Vienna, Austria, bringing together 350 delegates interested in energy storage from all over the world. The event marked ...

The project consortium aims to achieve a technology readiness level (TRL) of 4 by 2025 - an important milestone on the road to sustainable high-performance batteries "made in Europe". "In battery research, we are faced with the ...

China has put export restrictions on technologies critical for producing electric vehicle batteries, in a move to consolidate its dominance in the sector that has contributed to the country's ...

We are continuing to massively expand environmentally friendly public transport, currently the U2XU5 and three new tram lines. New drive technologies also play a key role. Wien Energie, Wiener Netze and Wiener Linien are joining forces to ...

Das Green Tech Valley beheimatet über 600 grüne Technologien und Dienstleistungen für Erneuerbare Energien und Kreislaufwirtschaft. Sehen Sie sich um und finden Sie im Valley die passenden Lösungen inklusive ...

Integrated battery technologies encompass both battery pack and body integration methods, with Cell to Pack (CTP) and Cell to Body (CTB)/Cell to Chassis (CTC) being prominent forms. With...

China has imposed export restrictions on eight key EV battery technologies as the country seeks to consolidate its dominance in the global EV race. The move makes it harder for Chinese ...

The IAEA is the world's centre for cooperation in the nuclear field, promoting the safe, secure and peaceful use of nuclear technology. It works in a wide range of areas including energy generation, health, food and agriculture ...

The project consortium aims to achieve a technology readiness level (TRL) of 4 by 2025 - an important milestone on the road to sustainable high-performance batteries "made in Europe". "In battery research, we are faced with the ...

Apart from proposing to tighten export restrictions on battery cathode material preparative technology, China plans to enhance export curbs on specific technologies and processes used for extracting metallic gallium and lithium, ...

Aufgrund von Zeitbeschränkungen wurde das Fahrzeug jedoch direkt in die

Leistungsphase überführt. Battery X Rebalancing Technologies ist der Ansicht, dass ...

The battery industry moves at a fast pace: The articles Battery Technology publishes represent only a fraction of what's happening in this quickly evolving industry. That's the idea behind this curated and regularly updated ...

Banner has undergone a long journey of over 80 years as one of the top 10 battery manufacturers in Austria. This manufacturer is focusing on the development of high-quality automotive batteries. Started production with ...

A Surge in EV Battery Recycling in Japan As electric vehicles (EVs) rapidly gain ground across Japan, attention is shifting to what happens to their batteries at the end of their life cycles. ...

Vienna battery technologies
