Pacific Solar & Photovoltaics is another outstanding company in Guam that advocates the use of solar panels. The company is proud about being in the business for more than 30 years, making them a reliable source of information and solar panel products. They are proud of the lineage of their founders, being traceable to be locally from Guam.

GoSolar Guam is committed to providing green energy solutions to the people of Guam and Micronesia. We design and build high-efficiency solar panel systems that will lower your carbon foot print, increase the value of your home or business, and ...

Without solar panels, we would be paying approximately \$600-700 per month for our power bill. With solar panels, we produce enough energy to earn a credit from the power company. At the end of 2019, Guam Power Authority actually cut us a check in the amount of \$574.34 for all the extra power we had fed back to them during the year.

The great solar energy debate continues to rage. The prevailing opinion is that while it's ok in theory to attach solar energy panels to our roof, the upfront financial costs render it impossible for the average family. At first glance and without bothering to research the matter further, there seems to be more than a ring of truth to it.

By Mar-Vic CaguranganDirt was turned on the Ukudu power plant project and a ribbon was cut for the official launch of the Mangilao solar farm during back-to-back events, which officials said marked "a tremendous step" toward Guam's goal to reduce reliance on fossil fuel and become 100 percent powered by renewable energy by 2045."Both milestone projects are ...
