

President Donald Trump was firm on Sunday that he would not allow any more wind turbines to be built in the United States, calling them "very destructive." Trump made his comments during ...

Offshore wind news on projects, capacity growth, and regulatory changes across Europe, US & Canada, MENA, and Asia Pacific. Learn how policies, investments, and innovations are driving the growth of offshore wind ...

IROQUOIS FALLS -- A packed council chamber made one thing clear: Many local residents don't want wind turbines in their backyard. About 30 people turned out to support two residents -- Lisa Mousseau and Cathy Deforge -- who ...

President Donald Trump landed in Scotland Friday evening for a five-day visit and delivered two blunt messages for Europe: "stop the windmills" and control immigration, which he said is "killing ...

Could a 100-Year-Old Math Solution Change the Future of Wind Power? Innovation has arrived from an unexpected source. A student at Pennsylvania State University has solved a long ...

Wind power is an important part of renewable energy generation in Australia, accounting for over 35% of all renewable energy generation in the country. This energy generation method, which involves capturing the power ...

Comprehensive 2025 handbook: site & wind evaluation, turbine sizing formulas, certified models list, grid/off-grid economics, incentives, interconnection, insurance and maintenance FAQs

A new report has highlighted a "severe problem" in the process of decommissioning offshore wind farms - seasonality and logistics. The study, published in the peer-reviewed journal ScienceDirect, sheds light on the effect ...

Chinese wind turbine manufacturers have been accelerating their global expansion in recent years, exhibiting their prowess at home and abroad, driven by technological advances and large-scale investment, said industry ...

Italy defeats claim over Mafia-linked wind farm brought by German bank Claim brought after authorities seized project featuring 48 Enercon wind turbines and liquidated local entity, ...

The Oumatingga wind power project, comprising 25 turbines with a total installed capacity of 100 megawatts,

Wind turbines today

stands as a landmark achievement that demonstrates the region's strong commitment to renewable energy development, particularly ...

A new peer-reviewed study from researchers at Poland's Adam Mickiewicz University has found no evidence that wind turbine noise causes mental harm, putting to rest a persistent and ...

New bladeless wind turbine generates clean, quiet, bird-safe power New bladeless wind turbine uses vibration instead of blades, offering quieter, safer, and greener energy for homes and cities.

Inspired by this natural adaptation, engineers have applied similar designs to wind turbines and fan blades. The result is improved airflow control, making the blades not only quieter but also ...
